

I have been going through some of my research, and have compiled a list of drugs available in the US and other countries by prescription which have demonstrated anti myeloma effect in vitro, and some are being studied in trials. I will list them in the format outlined below, in case it may be of general use. I'm less certain of the trials sections.

Type of Drug	Trade Name	Chemical Name	Used in clinical Trials
NSAID nonsteroidal antiinflammatory	Celebrex	Celecoxib	yes, + results, kidney problem
	Lodine	Etodolac	not yet
AntiDiabetic	Avandia	Rosiglitazone	not yet
	Actos	Pioglitazone	no
Antidepressant	Wellbutrin	Bupropion	no
	Paxil	Paroxetine	no
	Seroquel	Quetiapine	no
	Prozac	luoxetine	no
	Anafranil (OCD)	Clomipramine	no
Anti HIV Aids	Norvir	Ritonaivr	no
	Protease inhibitor		
	Epivir	Lamuvudine	no
	Reverse transcriptase inhibitor others		
For colitis	Azulfidine	ulfasalazine	no
Statins	ZoCor	Simvastatin	yes
	Mevacor	Lovastatin	yes
	Pravachol	Pravastatin	no
	Baycol	Cerivastatin	no, withdrawn in US
	Lipitor	Atorvastatin	yes
Aminobisphosphonates	Zometa	Zoledronic acid	yes
	Aredia	Pamidronate	yes
Immunosuppressant	Cellcept	Mycophenolate	yes
	Rapamycin	Sirolimus	yes, analogs
	Certican	Everolimus (rad001)	in studies, get in Europe
Antihypertensive Cardiac	Verelan	Verapamil	yes
	Isoptin	Verapamil	yes
Demethylating agent	Vidaza	Azacytidine	no
Anti Leukemia	Gleevec	Imitinib	yes, failed
	Sutent	Sunitinib	no
Antineoplastic	Nexxavar	Sorifenib	yes
Antiprotozoans	Suramin	??	yes

	????	Stibogluconate	to start
Anorectic	Pondamin	Fenfluramine	no
Antiepileptic	Depakote	Valproic acid	no
Antibiotic	Biaxin	Clarithromycin	yes
Hormone relative	Somatostatin	Octreotide	no
Vitamin D analogs		Paracalcitol	no
Antifungal	Lotrimin	Clotrimazole	no
Anticoagulant	Defibrotide	Available in Italy	yes
Serms	Nolvadex Evista	Tamoxifen Raloxifene	Used in relapsed male pts no

These drugs all have anti mm actions in vitro which are understood, and plausible.
I did not include any nutraceuticals. These are all prescriptions, and were released as “drugs” after testing for their indications.

Regards,
brad
